Passport

To showcase our farms and help our neighbors explore what they have to offer, Suffield's Economic Development Commission is offering this "Suffield Town of Farms Passport". It lists many of the farms in town that have farm stands or stores open to the public where you can have your passport stamped when you make a purchase from them. It also lists farms that sell their products at the Farmers Market on Saturday mornings.

Once you have completed at least fifteen stamps on your card, you can enter a drawing to win a \$20 gift card for one of the market vendors. Drawings will be held every two weeks throughout the season.

You can pick up your free passport at one of the following locations: The Farmers Market, Town Clerk's office or the Planning and Zoning Department in the Town Hall at 83 Mountain Road.

This is a great opportunity to visit and support Suffield farms by purchasing their fresh produce and farm products right here in town.
